Hospital Prejudice Gone

When we see the ambulance rushing down the street—another poor victim has met with an accident Our next thought—the hospital, but we don't realize that the poor fellow will have to be crowded into an already overcrowded room, and that the doctors have got to shift about the best they can because they are seriously handicapped by congested quarters For men hurt on buildings and in factories, there will be a special emergency operating room with physicians, surgeons and nurses in attendance at the Auburn Park Hospital The doctors know the situation only too well, but they can't be asked to build the hospitals, only except from an investment standpoint In that case they are obliged to charge exorbitant prices Hospitals that exist today owned by corporations and individuals are charging thirty per cent more than could necessarily be credited to hospitals that were built by the people and not run for profit but as a necessity and benefit to the community The hospitals are full today and dozens are being turned away right here in your own community Today the hospital is a life saving station Probably this is due much to the fact that the American people are transient, being in many cases away from their homes and knowing that they will be best taken care of when sick, in a hospital The New Auburn Park Hospital, located at 78th Place and Eggleston Ave, will be such an institution built by the gifts of the people and run for their benefit on a non profiting basis

COURAGE AND CAPITAL

Courage and capital are prime factors in any business. But it calls for an unusual degree of courage to venture into a new business enterprise in these troublesome times of high prices and unsettled conditions. Notwithstanding, we have satisfied ourselves that Auburn Park needs a live, up-to-the-minute music store and we are sparing no expense to supply same. True, many of our fixtures have been delayed by the prevailing railroad strike, nevertheless, we have straightened around somewhat and are now prepared to do business in full swing. Our stocks include everything in music. 3,000 to 5,000 Columbia records on hand always. 1,000 to 1,500 Q. R. S. Player rolls; 7,000 to 10,000 copies of sheet music, including Standard Vocal, Instrumental, Beginners' Books, Instructors, Classic Instrumental, as well as the most complete stock of Popular Music, current and past, on the South Side. Our stocks of stringed instruments are wide and varied enough to meet the tastes of all. Our stocks of accessories is without comparison outside the loop. We do not ask you to accept our word for it. You need but come into our store and see. Come in any time, we are always glad to show you around, and are not at all offended if you do not buy.

CAPITAL AND COURAGE are also prime factors in the making of bargains. We have both the courage and the capital to go into the market and buy tremendous quantities of merchandise. We thereby secure the lowest buying prices and from time to time, will offer bargains in musical goods.

The Value of a Trade Mark

You and I have realized the value of a trade mark in buying articles of standard brands as against imitations or similar articles.

The article backed up by a reliable manufacturer who gives it his mark of approval and guarantee by placing upon it his trade mark, assures you of dependable products that will render uniformly satisfactory service.

Just as true is this of merchants as it is of merchandise.

The merchant or professional man who possesses the qualifications of membership in his Business Men's Association and displays the emblem of his association in his place of business, has proven his integrity and reliability and you may patronize that man with assurance that you will receive courteous, satisfactory service.

We Need More Hospitals South of 55th St.

These Men Endorse the $500,000 Campaign for

The New Auburn Park Hospital

Something Worth Working For—A Larger Life-Saving Station

Woman's Executive Chairman

Beds, more beds, and still more beds!

Dozens of persons are being turned away daily because there are only 677 hospital beds south of 55th St., when there should be four times that number.

We need separate and specialized hospital quarters for mothers and children.

We need more thorough pathological laboratory equipment for the further advancement of medical science, including ample supplies of serums for hydrophobia, typhoid fever, pneumonia, scarlet fever and diphtheria. Also extra equipment and pulmometer always on hand ready for immediate action.

These modern discoveries are saving thousands of lives.

We need better and more practical facilities for broadening the education of greater numbers of doctors, surgeons, dentists, pharmacists and the training of more nurses and social service workers.

You will have all these in the New Auburn Park Hospital.

We need your help to raise $500,000 for the New Auburn Park Hospital, which will be located at 78th Place and Eggleston Avenue, fronting on Lagoon Park.

Remember this hospital is to be run without profit.
